

BRANGUS REGISTRATION SYSTEM

The registration system of the Society shall consist of the Calf book and Herd Book, be it computerised or in any other form, which shall be divided into three main sections, namely the Basic Section, the Appendix Section and the Stud Book Proper Section, which shall be maintained and operated by the registering authority designated by the Society in terms of the Act. All progeny of registered animals will initially be registered in the Calf Book. Animals will only be taken up in the Herd Book of the Society after approval according to the minimum visual and Performance Test Breeding standards as stipulated by the Council of the Society from time to time.

1.1 BASIC SECTION

Females of any breed may be recorded in the Basic Section.

1.2 APPENDIX SECTION

1.2.1 Appendix A

The following animals which comply with the breed standards and in respect of which all other registration requirements have been met shall be eligible for registration as Appendix A animals:

- (1) Registered Brahman females.
- (2) Non-registered Angus females.
- (3) The female progeny of commercial or Basic females mated to Appendix B, Appendix C or Stud Book Proper sires. Such animals must be of Brangus type, naturally polled (scurs are acceptable), and exhibit no white above the underline or on the head. Multiple Sire matings are permissible.

1.2.2 Appendix B

The following animals which comply with the breed standards and in respect of which all other registration requirements have been met shall be eligible for registration as Appendix B animals:

- (1) Registered Angus females.
- (2) Non-registered Brangus females.
- (3) The progeny of registered Brahman x registered Angus registered Brangus x registered Brahman, and registered Brangus x registered Angus.
- (4) The progeny of Appendix A animals mated to Appendix B, Appendix C or Stud Book Proper animals.
Except in the case of registered Angus females such animals must be pure Brangus in appearance, naturally polled (scurs are permissible), and exhibit no white above the underline or on the head. Multiple sire matings are permissible.

1.2.3 Appendix C

The progeny of the following animals which comply with the breed standards and in respect of which all other registration requirements have been met shall be eligible for registration as Appendix C animals:

- (1) Appendix B x Appendix B
- (2) Appendix B x Appendix C
- (3) Appendix B x Stud Book Proper
Such animals must be pure Brangus in appearance, clean polled (no scurs), have no white on the underline in front of the navel, and be solid black or solid red in colour (no brindle).

1.3 STUD BOOK PROPER SECTION

The progeny of the following animals which comply with the breed standards and in respect of which all other registration requirements have been met shall be eligible for registration in the Stud Book Proper section:

- (1) Appendix C x Appendix C
- (b) Appendix C x Stud Book Proper
- (c) Stud Book Proper x Stud Book Proper.

Such animals must be pure Brangus in appearance, clean polled (no scurs), exhibit no white on the underline in front of the navel, and be solid black or solid red in colour (no brindle).
